Matias Vallejos

Co-Founder @ Tegu | Product Engineer

Cordoba, Córdoba, Argentina

Summary

Driven Full Stack Developer with 1+ year of industry experience, specializing in web development, cloud solutions, and product-driven engineering. Passionate about building scalable, high-performance applications using modern JavaScript frameworks and cloud-native technologies. Founder of Docta Valley, fostering a growing community of builders and startups. Open-source contributor with 100+ GitHub stars.

Professional Experience

- ◆ Full-Stack Web Development: Built and optimized APIs and scalable web applications using Next.js, NestJS, and TypeScript, improving performance for Argentina's 2nd largest retail company.
- ◆ Backend & Cloud Architecture: Engineered serverless applications with AWS Lambda, API Gateway, and DynamoDB, reducing infrastructure costs and improving reliability.
- ◆ Database Management: Skilled in PostgreSQL, MySQL, and Redis, optimizing query performance and ensuring data integrity.
- ◆ Authentication & Security: Implemented OAuth2, OIDC, and JWT for secure and scalable user authentication.

Technical Skills

- ◆ Languages: JavaScript (TypeScript, Node.js), Python, C#
- ◆ Frameworks: Next.js, React, NestJS, Express.js
- ◆ Databases: PostgreSQL, DynamoDB, Redis
- ◆ Cloud & DevOps: AWS (Lambda, API Gateway, S3, DynamoDB), Vercel, Docker, CI/CD
- ◆ Authentication: OAuth2, OIDC, JWT
- ◆ System Architecture: Microservices, Serverless, Event-Driven Design

Core Competencies

- ◆ Strong fundamentals in scalable system design and software engineering best practices.
- ◆ Passionate about building products that solve real-world problems, not just writing code.
- ◆ Adaptable and always learning, staying ahead with the latest cloud and web development trends.
